n the races at Aqueduct to-day. The

Veteran Trainer Starts Patched-Up Gripple and He Wins in a Gallop.

By Vincent Treanor.

TIMMY ROWE hasn't developed any Sysonbys, Colins, Markettes not Regrets of late years but he still ranks among the foremost of American thoroughbred trainers. Not only does he send good horses to the post from time to time, always fit to run, but he also can boast of an ability to patch up a cripple to run winning This was proven yesterday when Dominant, who broke down in the Kentucky Derby of 1918, came out of a retirement of three years and rah off with the opening event of the day, at Aqueduct. Of course there were no champions opposing him, but they were a fairly good lot of sprinters to send a partly rejuvenated horse against with 124 pounds on his back the first crack out of the box. Dominant, however, hadn't forsotten his race horse business. He took to the track with the same quick-footedness he showed as a two-year-old, and galloped home with Willie Knapp looking over his right shoulder at the others, in the good time of 1.13 1-5. The horse had worked so fast in his recent preparation for the event that, in the language of the track, Rowe thought he couldn't miss. We don't know how leng Dominant will "stand up," but in his present condition he should be able to hold his own with the best of sprinting company. when Dominant, who broke down in

W. J. Salmon's two-year-old Eddie Rickenbacker is making a great record fer consistency, as in fact all of the Salmon horses trained by Gene Wayland have done since the local season opened. Yesterday the cult named after the American air fight-ing ace annexed the \$3,000 Canarsis Seiling Stakes, winning from end to end. In six starts Eddie Rickenbacker has wen three times, been second has wen three times, been second twice and once finished out of the

Trainer Simon Healy announces that his employer, Willis Sharp Kilmer, has decided to hold a sale of some of his good horses during the second week in August at Saratoga. Included in the lot will be a highly bred stallion, some brood mares and several yearlings, all from Mr. Kilmer's Virginia estate, Remlik Hall.

W. B. Gilpin, known to receptors of a generation ago as a thorough horseman, handleapper and writer, was at the track yesterday after a long absence, "Gillie," as he was known, held a reunion in the paddock and was kept busy shaking hands with his old cronies. Gillie didn't sport the flower in his coat ispel, without which he rarely appeared in the old days. He says they have no flowers out on the Montane ranch from which he had come East. He is in the cattle raising business, and it appears to agree with him.

distinguished foreigner will be at the distinguished foreigner will be at the track as a guest of Andrew Miller. Eugene Woods was hustling around all day resterday trying to find "spots" where the Prince might wager to-day with profit.

Jimmy Fitzeimmons had Ophelia from them to win as she pleased.

Copyrighted, 1919 by O'S. R. Co.

Ealf way through a race lines of fatigue begin to appear

deeply engraved

The progress of fatigue in the face of an athlete is shown by these three illustrations.

## Do lines of fatigue show in your face?

OU, too, would look like this if you had just raced a mile. But do you know that every day of your life you use even more energy than this? You do not feel acute fatigue because the loss of energy is spread over an entire day. But unless you take care to

protect yourself from needless exhaustion, permanent lines of fatigue will form in your face sooner than you expect.

You can do much to conserve your energy. You can eliminate one of the greatest causes of fatigue. You can avoid pounding around all day withhard, nail-studded leather heels on still harder pavements and floors.

Replace your hard, unyielding heels with O'Sullivan's Heels of live, springy rubber. O'Sullivan's Heels absorb the shocks that tire you out. They relieve the jolts and jars that make a burden of walking.

To secure the great resiliency and durability of O'Sullivan's Heels, the highest grades of rubber are "compounded" with the best toughening agents known. The "compound" is then "cured" os baked under high pressure.

It is this special process that has, since the making of the first rubber heel, established O'Sullivan's Heels as the standard of rubber heel quality.

O'Sullivan's Heels are guaranteed to wear twice as long as ordinary rubber heels; and will outlast three pairs of leather heels.

Go to your shoe repairer today and have O'Sullivan's Heels put on your shoes.

O'Sullivan's Heels are furnished in black, white or tan; for men, women and children. Specify O'Sullivan's Heels, and be sure that you get O'Sullivan'savoid the disappointment of substitutes.
